# **MATERIAL SAFETY DATA SHEET**

## **NOVACAL II**

#### **SECTION 1. Chemical Product and Company Identification**

| Trade name:<br>Grade:<br>CAS registry number:<br>Chemical name:<br>Synonym:<br>Product Use: | <b>NOVACAL II</b><br>Reg (SGN 235)<br>n/a<br>n/a<br>Fertilizer                                      |
|---|---|
| Manufacturer:   | ECO+, Division of Ferti Technologies Inc.<br>560 Rhéaume<br>St-Michel (Québec)<br>CANADA<br>JOL 2J0 |

| Date of first issue:  | November 15, 2011                                  |
|-----------------------|--|
| Modification date:    | July 31, 2017                                      |
| Responsible:          | Antoine St-Pierre                                  |
| In case of emergency: | CANUTEC: (613)996-6666<br>CHEMTREC: 1-800-424-9300 |

# SECTION 2. Composition/Information on Ingredients

| Hazardous Material:<br>No hazardous material | CAS number | %<br>by weight | Limit Exposure |
|--|------------|----------------|----------------|
| Additional ingredients:                      | CAS number |                |                |
| Calcium sulfate                              | 7778-18-9  |                |                |

Nutrisorb

OCHA Dermissible

### **SECTION 3. Hazards Identification**

| Emergency overview:         | No significant immediate hazards for emergency responses are known.  |
|-----------------------------|--|
| CAUTION:                    | Contact with dust may cause discomfort and/or mild irritation to skin, eyes, nose and lungs. Avoid breathing dust. |
|                             | Do not ingest. May irritate mouth, stomach, etc.   |
| Physical state (25ºC/77ºF): | Wash thoroughly after handling.<br>Gray or brown solid granules, no odor.  |

#### **SECTION 4. First Aid Measures**

| Inhalation:    | Bring subject to a well ventilated area. Contact a physician if symptoms persist.  |
|----------------|--|
| Skin:<br>Eyes: | Wash with plenty of water.<br>Flush eyes with large quantities of running water for a minimum of 15<br>minutes. Remove contact lenses. Rinse the entire surface of the eye and<br>lid with water. Call a physician if eye irritation occurs. |
| Ingestion:     | Harmfull if swallowed. Seek medical care. Do not induce vomiting.  |

#### **SECTION 5. Fire Fighting Measures**

| Flammability limits in              | <b>Air</b> (%): n/a  | <b>UEL</b> : n/a     | LEL: n/a       |
|-------------------------------------|--|----------------------|----------------|
| Fire extinguishing media:           | Use media appropria  | ate to surrounding f | re.            |
| Fire fighting procedures:           | Use a stream of water to cool containers and surfaces exposed to fire and to dissipate vapours. Use a self-contained respirator. |                      |                |
| Other fire or<br>Explosion Hazards: | Toxic gases may be   | released at elevated | l temperature. |

## **SECTION 6. Accidental Release Measures**

| Small release:    | Stop leak or spill. Collect for re-use. Contain runoff by diking. Prevent spills from entering water courses, basement or closed area. Wear |
|-------------------|---|
| Release to water: | appropriate personal protective equipment for cleanup.<br>Reclaim as much product as possible to avoid further contamination.               |

#### **SECTION 7. Handling and Storage**

| Handling: | Wear suitable personal protective equipment. Avoid inhalation and prolonged or repeated contact with eyes and skin.      |
|-----------|--|
| Storage:  | Store in a dry, ventilated area, away from food and seed. Keep at ambient temperature.<br>Keep out of reach of children. |

#### **SECTION 8. Exposure Controls and Personal Protection**

| Exposure limits:     | n/a  |    |
|----------------------|--|----|
| Personal protection: | Skin contact with the product should be prevented with the use o appropriate protective clothing and gloves (nitrile gloves are recommended). Wear safety glasses with side-shields to avoid ey contact. |    |
| Respiratory:         | If dust is generated, use a NIOSH-approved respiratory mask.   |    |
| Ventilation:         | Provide good ventilation if dusty conditions prevails.   | EC |

### **SECTION 9. Physical and Chemical Properties**

Physical state: Appearance Odour: Melting point (°C/°F): Bulk Density: Solubility: pH: Solid Gray or brown granules No odor **n/a** 70 lbs/ft<sup>3</sup>, 1120 kg/m<sup>3</sup> Partially soluble in water n/a

#### **SECTION 10. Stability and Reactivity**

Under Normal Conditions:StableUnder Fire Conditions:StableHazardous Polymerization:Will not occurConditions to Avoid:Extreme temperaturesMaterials to Avoid:Strong oxidizing agents, chlorates, hypochloritesHazardous Decomposition orCyanuric acid, sulfur oxides, nitrogen oxides, carbon oxides

### **SECTION 11. Toxicological information**

| Recommended  | None recommended for this product   |
|--|---|
| Exposure Limit:  | None known  |
| Toxicological Data:                                    | Ingredients of this products are not listed as carcinogens by OSHA or NTP   |
| Carcinogenicity Data:                                  | and are not rated by IARC or ACGIH.   |
| Reproductive Effects:                                  | No data available   |
| Mutagenicity Data:                                     | No data available   |
| Teratogenicity Data:                                   | No data available   |
| Synergistic Materials:                                 | None known  |
| <u>Effects of exposure when</u><br>Inhaled:            | Dust is irritating to nose, throat and respiratory tract. May cause coughing or sneezing.   |
| In contact with the skin:<br>In contact with the eyes: | Prolonged and repeated contact may cause mild irritation.<br>Dust may cause mild irritation and due to abrasiveness may cause eye<br>damage if untreated. |
| Ingested:  | Ingestion may cause gastrointestinal upset, abdominal pain and diarrhea.  |
| Other health effects:                                  | No data available.  |

#### **SECTION 12. Ecological information**

May be harmful to aquatic life. In sufficient quantity may deplete oxygen required by aquatic life. May cause eutrophication of ponds and lakes.

Deactivating chemical: None required

## **SECTION 13. Disposal considerations**

Suitable for use as agricultural/horticultural fertilizer. Consult local authorities. **Do not dispose of waste with normal garbage or into water systems**.

#### **SECTION 14. Transport Information**

**DOT/TDG Classification** Not controlled under DOT (USA) or TDG (Canada).

## **SECTION 15. Regulatory Information**

| NFPA<br>Classification   | DOT/TDG<br>Pictogram        | WHMIS<br>Classification | Protective<br>clothing |
|--|-----------------------------|-------------------------|------------------------|
|  | <b>DOT</b><br>Not regulated | Not regulated           |                        |
| Health hazard:1(Slightly hazardous)<br>Fire hazard: 0 (Will not burn)<br>Instability hazard: 0 (Stable)<br>Specific hazard: None | <b>TDG</b><br>Not regulated |                         |                        |
