

# MONOPOTASSIUM PHOSPHATE

*Rich*  
GROW

## Monopotassium Phosphate

0-52-34

### GUARANTEED MINIMUM ANALYSIS

Available Phosphoric Acid ( $P_2O_5$ ): 52 %  
Soluble Potash ( $K_2O$ ): ..... 34 %

**INGREDIENT:** Monopotassium  
Phosphate

### DIRECTIONS FOR USE:

This fertilizer is intended to assist in the production of various greenhouse and field crops requiring the nutrients listed on this label. This product requires dilution with clean water before feeding to plants, and should be used as part of a complete fertilizer program.

**Without Injector:** If mixing final feed strength (no ratio injector) add between 0.15 to 0.25 grams of this product to every litre of clean water.

**With Injector:** If using a 1:100 ratio injector, add 15 to 25 **grams** of this product to every litre of clean water in the concentrate tank. **For**

**example**, if you have a 1000 L ( $1 m^3$ ) concentrate tank with a 1:100 ratio fertilizer injector, add 15 to 25 **kg** of this product to the concentrate tank. When concentrating fertilizer solutions, care must be taken to follow general rules of compatibility. The fertilizer rate must also take into consideration nutrients delivered by all other fertilizer fed in combination with this one in order to avoid overdosing any elements.

***We advise you to seek the assistance of a fertilizer specialist, combined with frequent soil or drain water tests, to determine the correct amount of this product to use at any specific point of your crops maturity with the fertigation equipment on your farm/greenhouse.***

### CAUTION:

Harmful if inhaled. Causes irritation of eyes, skin and respiratory tract. Harmful if swallowed. Avoid breathing

dust. Do not get in eyes, on skin, or clothing. Wear eye protection and protective clothing. Wash thoroughly after handling.

### FIRST AID:

**In case of contact:** Immediately flush eyes and skin with plenty of water for at least 20 minutes. For eyes, get medical attention. If inhaled: Move to fresh air. If swallowed: Administer two glasses of water to dilute. Never give anything by mouth to an unconscious person. Ingestion of large doses causes intestinal disorders.

**For Fire:** Will not burn. Treat as for surrounding media. Wear self-contained breathing apparatus and full personal protective equipment.

**For Spill:** Sweep up with minimum dust. Place in dry, labeled container.

For additional information, see the Material Safety Data Sheet.
