# PLANTING INSTRUCTIONS

## **PREPARATION:**

For new lawns, till the soil to a depth of 10-15 cm (4-6 inches). Rake level and roll soil with a roller.

## **SEEDING:**

Broadcast seed evenly over desired area. Lightly rake and roll the area to press the seed into firm contact with the soil. Keep the newly seeded area moist until seedlings are well established.

## **OVERSEEDING:**

Power-rake existing lawn to remove thatch layer (optional). After broadcast seeding, rake lightly to help the seed contact the soil. Keep the newly seeded area moist until seedlings are well established.

## **MAINTENANCE:**

Mow as needed. Use a good slow release fertilizer in spring, summer and fall. This will promote a healthy, disease-free lawn.
