

FulviGold

FulviGold is a concentrated liquid fulvic acid product that has a relatively small molecular structure that readily enters plant roots, stems and leaves. It helps transport trace minerals directly to metabolic sites in plants. FulviGold helps increase bioavailability, nutrient uptake and also increases cation exchange capacity when applied to soil. It can be applied as soil drench, in fertigation or foliar sprays on a wide variety of crops.

DIRECTIONS FOR USE:

Shake or stir well before use.

Foliar: 1 - 2 L per acre.

Drench: 4 - 5 L per acre.

Use alone or with fertilizers. Use appropriate amount of water for application.

Read entire label prior to use.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Avoid splashing product. Avoid contact with skin, eyes and clothing. Harmful if swallowed. Avoid contamination of domestic or irrigation water supplies, lakes, streams and ponds. Wash hands and exposed skin with soap and water. Wear protective gloves, protective clothing and eye protection.

FIRST AID: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor immediately for treatment advice. IF ON SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water. Call a poison control centre or doctor immediately if symptoms persist or increase.

STORAGE: Store in its original container tightly closed and away from children and pets. Store in a cool, dry place.

DISPOSAL: Dispose of product/container in accordance with local, provincial/state and federal regulations.
