

INTRODUCTION

BioFert General Purpose 4-3-9 is an organic, granular fertilizer that can be used for organic production in soil and soil-less medium for all plants. It is enriched with added calcium, sulphur and a wide range of minerals, including humic acids. All nutrients are in their naturally occurring form to provide continuous slow-release nutrition. General Purpose 4-3-9 is an ideal fertilizer for seedlings and as an additive for soil-less mixes.

NUTRIENTS	Value
Total Nitrogen (N)	4.00 %
Available Phosphoric Acid (P ₂ O ₅)	3.00 %
Soluble Potash (K ₂ O)	9.00 %
Calcium (Ca)	6.00 %
Sulphur (S)	6.00 %

SIZES	SKU
25 kg	BF7604273
1000 kg	BF7604272

PRODUCT CHARACTERISTICS	
Appearance	Bulk Density
granules	

APPLICATION RATES:

Soil-less Mix: 3 - 4 kg/m³

Soil Application: For band application use at 30 - 35 kg/1,000 m² (120 - 140 kg/acre).

BENEFITS

- Ideal for early plant establishment
- Excellent for many different crops and uses
- Increases microbial activity and organic matter
