Directions for Commercial Use:

Potassium D.L. 0-0-6 is a liquid fertilizer intended for foliar use. It should be used as part of a complete fertilizer program. Plants will require additional sources of major and possibly secondary and minor nutrients. A leaf tissue or soil test should be taken before use. The rate of application depends on soil type and intended crop. Apply Potassium D.L. 0-0-6 foliar at a rate of 4 -12 litres/acre (10 – 30 L/ha) with sufficient water for thorough coverage. For best results, spray in early morning or late afternoon. Do not apply when air temperature is above 30°C. Potassium D.L. 0-0-6 is recommended only for a use as a supplementary source of plant nutrients to a basic fertilizer program that relates to the fertility level of the soil.

First Aid:

IF IN EYES: flush eyes with plenty of water for at least 15 minutes, lifting the upper and lower eyelids occasionally. If irritation develops or persists, seek medical advice for treatment.

IF ON SKIN: in case of irritation, remove clothing. Wipe excess from skin and wash with warm, soapy water for at least 5 minutes. If irritation develops or persists, seek medical advice for treatment.

IF INGESTED: induce vomiting. Never give anything by mouth (oral) to an unconscious person. If irritation develops or persists, seek medical attention immediately.

IF INHALED: remove person to fresh air. Get medical attention for any breathing difficulty.
